

CAMPING RULES AND REQUIREMENTS

The following conditions must be met:

The recreational vehicle (RV) may only be used on property owned by the operator of the RV, or by another person if the owner of the property has given written permission for the other person's use. Use by other people shall count against the owner's 90-day cumulative total. The time limits cannot be increased by moving the RV to a different lot during the same calendar year.

The operator must obtain a camping permit from the police department prior to each placement.

The RV must be self-contained or hooked up to an approved sanitary system. Porta-potties do not meet this requirement.

The camping permit must be posted at the street property line next to the driveway.

Up to two (2) RV's may be used per undeveloped lot.

Tent camping will not be allowed except in conjunction with a self-contained RV, or an RV hooked up to an approved sanitary system. Tents may not exceed one hundred (100) square feet and only one tent per RV shall be allowed, not to exceed two (2) tents per lot.

These lots are not intended for the permanent storage of your RV. They are for the sole purpose of camping. Each occasion your RV is on your property, a camping permit is required whether you are staying or not.

Should you have any questions feel free to contact me at the Police Department, 577 Point Brown Ave NW, or you can reach me at (360) 289-3331, voicemail extension 7567.

15.12.020 Use as living quarters—
Conditions.

Unless otherwise authorized by this code, a recreational vehicle may be parked on an undeveloped lot (regardless of the number of lots owned) for a maximum of ninety cumulative days in any one calendar year. The above-described use may occur only under the following conditions:

- A. All zoning requirements must be met, and all recreational vehicles must be placed on the lot in accordance with R-1 zoning setback standards, and waterfront setback standards, if applicable.

The recreational vehicle may only be used on property owned by the operator of the recreational vehicle, or by another person if the owner of the property has given written permission for such other person's use. The time limits authorized by this chapter may not be increased by moving the recreational vehicle to a different lot during the same calendar year. No undeveloped lot may be leased or rented to another person.
- C. The operator must obtain a camping permit from the police department or other designated city officer prior to each placement. The city manager is empowered to establish rules and regulations governing the issuance of such permits and to provide for a permit fee sufficient to cover estimated expenses incurred.

- G. Up to two recreational vehicles may be used per undeveloped lot. Any recreational vehicles which exceed that number may be approved at the sole discretion of the city manager or designee, on a once-a-year basis, for a maximum period of seven days, provided the excess recreational vehicles meet R-1 zoning setback standards, and wa-

terfront setback standards, if applicable. Upon a showing of exceptional circumstances, the city manager or designee shall also be empowered to extend the term of a camping permit.

- H. Tent camping will not be allowed, except in conjunction with a self-contained recreational vehicle, or a recreational vehicle hooked up to an approved sanitary system. Tents may not exceed one hundred square feet, and only one tent per recreational vehicle shall be allowed, not to exceed two tents per lot.
- I. Up to two recreational vehicles may be placed as noted above on private real property, not owned by the city, with or without a primary structure, for use as security quarters. This placement must be in conjunction with an approved special event. The city manager or designee must approve this placement.
